DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8 and 10-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Winchester (US 5,926,843). Winchester discloses a moldable limb protector worn below the knees including a blank made of thermoplastic (14) that can be premoulded during manufacturing process, col. 2, lines 56-60 with a curved inner surface having a shock absorbing padding (28) as shown in figure 3. Further, the device has hook and loop material (16,18) thereon defining a tubular shaped when worn about the limb/body part as shown in figure 2. Also , the device is covered by a upholstery, col. 3, lines 28-30.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3765

4. Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Winchester.

With regard to claim 9 it would have been obvious to one skilled in the art at the time the invention was made to provide as many moldable protectors that covers the body as required for a particular application or end use thereof.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.
